

MAHALAXMI KANNAN

AI & Data Science Undergraduate (2nd Year)

Coimbatore, India | mahalaxmikannan51@gmail.com | [LinkedIn](#) | [MyPortfolio](#) | [GitHub](#)

PROFILE SUMMARY

AI & DS undergraduate with hands-on experience in Deep Learning and Full-stack development. Proven track record in building end-to-end ML solutions from speech recognition (90%+ accuracy) to predictive analytics—with a strong focus on scalable backend architecture and data-driven insights.

EDUCATION

Sri Krishna College Of Engineering And Technology , Coimbatore, Tamil Nadu 2024 - 2028
Bachelor's Of Technology in Artificial Intelligence And Data Science | CGPA: 8.5

Academic Achievements:

- LeetCode: Solved 450+ problems (Data Structures & Algorithms)
- Achieved Top Performer in department, maintaining top academic performance among 120+ peers.

PROJECTS

- LeetCode Tutor – Browser Extension** - Developed a browser extension that provides contextual hints, explanations, and problem-solving guidance for coding challenges on LeetCode.
- Resort Room Booking System** - Built a full-stack room booking and management platform using React.js, Spring Boot, and REST APIs, enabling users to manage reservations and room availability.
- NexusPay – Salary Prediction System** - Developed a machine learning model to predict salary ranges based on skills, experience, and job role using predictive analytics and structured datasets.
- Carbon Emission Tracker – Data Analytics Platform** - Designed a data-driven platform that analyzes user activities to estimate carbon emissions and generate insights.

ACHIEVEMENTS

Guvi SheCode Hackathon(4th Place Winner) Mar 2025
Designed and prototyped “ElevateHer”, a career empowerment platform for women, focusing on UI/UX-friendly workflows and accessibility.

HackSprint by IamNeo (Finalist) Jan 2026
Built a Job Recommender and Career Analytics Platform that analyzes user skills and career data to generate personalized job recommendations and actionable career insights.

Care Hackathon (Finalist) Mar 2025
Proposed an innovative AI-powered Skin Medical Patch by exploring its functional layers for real-time health monitoring and medicine dispensing.

CERTIFICATIONS

- Django Framework – Meta (Jul 2025)** : Built scalable backend apps with Django.
- HTML, CSS, JavaScript – Infosys (Oct 2024)** : Gained frontend development skills.
- MongoDB – Infosys (Jan 2025)**: Learned NoSQL database design & queries.
- Power BI – Microsoft (Dec 2025)**: Created interactive dashboards & insights.
- ServiceNow – Micro-Certification (Dec 2024)**: Learned workflow automation basics.

WORK EXPERIENCE

Alfido Tech (Machine Learning Intern) May 2025 - Jun 2025
Developed ML models (SVM, Random Forest) for **Iris classification** and **house price prediction** (10K+ records), achieving **95% accuracy** and a **15% efficiency gain**.

CodTech IT Solutions (AI Intern) Feb 2025 - Mar 2025
Engineered a **deep learning speech model** (90%+ accuracy) and a **Transformer-based NLP summarizer**, reducing content length by 60% while retaining context.

SKILLS

- Programming**: Python, JavaScript
- ML/AI**: NLP, Transformers, Scikit-learn
- Web**: React, Node.js, Django
- Databases**: MongoDB, MySQL, Firebase
- Tools**: Git, Power BI, Google Cloud
